Lathemachines, Drilling and Milling Unit

TÜV/GS/CE-certified

Item no: 80001 Barcode:: 9003324800012 PU: 1

Specifications:

Distance between centers:	550 mm
Distance over bed:	125 mm
Swing over bed:	250 mm
Spindle speed (6 steps)	125 – 2000 rpm
Hole through spindle:	19,8 mm
Top slide travel:	74 mm
Movement of tailstock quill:	70 mm
Taper of spindle bore:	MK2
Metric threads:	(12) 0,4 – 3 mm
Whitworth threads:	(8) 10 – 44 Gg/1“
Feedrates longitudinal metric:	(2) 0,1 – 0,3 mm U
Voltage:	230 V
Engine power:	600 W 230V~50Hz
Main dimension (L x B x H)	1180 x 600 x 380 mm
Weight:	~ 130 kg

Item no: 80002 Barcode:: 9003324800029 PU: 1

Specifications same as 80001 but 400V:

Basic equipment:

Three jaw chuck 125mm
Gear set (10) 30/40/42/50/52/60/66/70/75/80 th
Dead center: MK2 + MK3

Lathe machine „Compact 300“

TÜV/GS/CE-certified

Item no: 81001 **Barcode:: 9003324811018** **PU:1**

Specifications:

Voltage:	230 V~ / 50 Hz
Engine power:	300 W
Distance over bed:	90 mm
Swing over bed:	180 mm
Distance between centers:	300 mm
Hole through spindle:	20 mm
Cutter size max.:	8 x 8 mm
3-jaw chuck outer jaws:	34 mm
inner jaws:	75 mm
Hole through jaw chuck:	16 mm
Range of threads metric:	(12) 0,4 – 2,0 mm
Spindle speed: low range	100 – 1100 min +/- 10%
Spindle speed: high range	200 – 2500 min +/- 10%
Overall dimensions:	~ 700 x 300 x 270 mm
Weight:	~ 39 kg

Basic equipment:

3-jaw chuck, set of changing gear, spindle center MK2, safety switch, variable speed left + right, Manual, working tools

Short discription:

An ideal small lathe machine for multi-purpose use of different materials.
Special made for precision mechanic, mechanical workshop – schools, Optical – and Electric – workshops.

ERBA AUTOMOTIVE COMPONENTS INFORMS

ERBALOG The modular construction system for all fields. Organisation and functionality in all vehicles, adapted individually to fit the needs and functional range. The cost saving investment for an affordable price. Through the modular construction system, under observance of consistant contact spacing, the single elements can be constructed individually to a complete order system. Over 1435 system elements in 5 breadths, 4 heights and 3 depths, allow in its combination variety, to customize the devices perfectly.

ERBALOG products are made of high quality steel plate. The impact – and scratch proofed Epoxyd- powder coating guarantees additionally a higher life span. The whole equipment can be taken out very easily and you have the complete loading space of your vehicle back. Change your car and not your equipment; if you decide for a smaller or bigger car, the equipment comes – reduced or expanded – always along.
The assembling is made on the **ERBALOG** basis supporter, the baseplate, for all current types of vehicles promptly available. The body work will be not drilled, the value of your (leasing-) vehicle is received. All movable parts of your device are automatically blocked and prevent selfopening during driving. You raise the efficiency of your vehicle and your personell up to 50%. Your investment has amortised after a short period and helps to save you money from this time on.
